BIOGRAPHY

As part of a career-change, I am completing an undergraduate degree in computer science (in French). The transition from end-user to a role where I can be more responsible for the development and conception of software and their UX is where I hope to find myself at the end of this degree.

EXPERIENCE

Freelance web and app designer, project manager
Self-employed, Paris, France, 2018 – present

Freelance web developer for several clients :
- Profession websites for clients, created concept of the presentation and navigation
- Logo and icon design

Alcoa
EHS Manager, USA, 2010-2013

Manage all health, safety and environmental compliance activities for a given location. Liaise with unions, company management, federal and state authorities.
- Worked with international sites (South Korea, Germany)
- Training development and implementation
- Collection of information and observations required for the reports.

Early professional activities
Early in my professional life, I was in customer service in fast-paced operations. Having good time and money management, as well as an excellent customer-facing personality, has given me led to increasing responsibility in all my roles.
